Skills

Languages: C/C++, Python, JavaScript, TypeScript, SQL

Technologies & Tools: AWS, Docker, ReactJS, Kubernetes, VueJS, DynamoDB, S3, Lambda, NodeJS, Kafka, Spring, Postman, ReactJS, NuxtJS, Figma, Digital Ocean

Work Experience

SearchOver

Dec 2023 - Present

Software Development Engineer

- I created numerous personal and business portfolios for clients using VueJS, enabling them to effectively manage services and monitor business performance. As a result, there was a significant 80% increase in output.
- I provided advanced digital skills training to students ranging from 7 to 60 years old. This training encompasses expertise in areas such as data analysis, front-end development, low-code development, and sales.
- AWS, EC2, S3, Kafka, Python, TypeScript, JavaScript, Postman, DynamoDB, Lambda, Spring

Nestlé Nigeria Plc

Jan 2023 - Nov 2023

Information Technology Assistant

- I spearheaded the monitoring of critical IT issues and initiatives nationwide, resulting in over a 95% enhancement in cyber security and a substantial increase in operational efficiency.
- I successfully maintained the security and integrity of all IT assets by developing an automated system that detected non-compliant devices, resulting in an over 80% reduction in operational costs.
- Managed the network systems that were responsible for overseeing daily operations, resulting in more sales.
- Python, SQL, hardware repairs, Kafka, Microsoft, PowerBI

TopUniverse

Jun 2021 - Nov 2022

Frontend Engineer

- Actively participated in Agile development cycles, collaborating with other developers and stakeholders in planning, and review meetings, ensuring timely and efficient project progression.
- Optimized web applications for maximum speed and scalability. Conducted performance testing and debugging to identify bottlenecks, implementing best practices to enhance website responsiveness and efficiency across various devices and browsers.
- Python, Flask, ReactJS, d3, Kafka, DB2, VueJS, Docker, Digital Ocean, Kubernetes, Postman, Figma

Education

Crawford University

Oct 2018 - Nov 2022

B.Sc. in Information and Communication Technology

Degree: Second class Upper

Relevant Coursework: Object Oriented Programming, Databases, Discrete Math, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Structures and Algorithms, Information Retrieval, Signaling and Image Processing

Project Work

- **Online Counseling System (2022):** Created desktop software designed for online counselling and therapy. Integrated a chat system to facilitate remote therapy sessions, enabling students to seek support from the convenience of their dormitories. Python, ReactJs, C
- **A Food Ordering Mobile Application (2021):** I collaborated with the TopUniverse Development Team to create [EasyFood](#), a mobile food ordering application. This platform enhances the food delivery process by providing improved payment options and a more efficient ordering system. C++, JavaScript, NodeJS, Postman, Camunda
- **A hospitality website (2021):** Together with the TopUniverse Development Team, I participated in the development of the [Hayche Network](#) a platform designed to connect individuals from various countries with hospitality centers. AWS, VueJS, DigitalOcean, Typescript
- **A personal portfolio website (2023):** I led the development of the [Ayo Lawal](#) website in collaboration with the SearchOver

Awards and Certificates

- **Mentor at SearchOver:** Helping students and working professionals to get better at problem-solving, coding and system design, sales, understanding and breaking down complex structures.
- **Sportswoman of the Year 2021** Nigeria Association of Computer Science Crawford University.
